

Forum of mid-level  
academic staff

**ACIDUL**

# University. Now.

**University of Lausanne  
5 & 6 December 2019**

Publish or perish, scientometrics, unpaid work and burnouts. Confronted with these phenomena, we are constantly asked to look towards the future while preserving the status quo. For this Forum, we are inviting non-professorial fellow academics who contribute to the life of the university today to join us in reflecting – in a scholarly, critical and constructive manner – upon the conditions of our work, the solidarities and differences that exist within this heterogeneous group that we term, in Switzerland, “mid-level faculty.”

**SESSION 1**
