

EDUCATION AND RESEARCH IN DANGER

JOIN US!

From 2026, the Swiss Federal Council plans to slash federal contributions by **460 million francs** per year in **universities**, the **ETH domain**, **universities of applied sciences**, and funding bodies such as the **SNSF**

If Parliament accepts these cuts, the consequences will be devastating

- X More job insecurity** – disappearance of 1,500 SNSF positions and 500 projects
- X Higher tuition fees** – education is a right, not a privilege
- X Lower education quality** – fewer resources, overworked lecturers
- X Weaker research** – erosion of the reputation of Swiss higher education institutions

We urge politicians to reconsider these cuts and protect funding to preserve academic excellence, high-quality research and teaching, and accessible education for all!

NO TO BUDGET CUTS

**Meet at 5:00 p.m. on 01.10.2025 at the
Federal Square in Bern**
